

Key Stage 4 Options 2021

BTEC Tech Award in Health and Social Care

Why choose BTEC

- ✓ BTEC Tech Award in Health and Social Care can help you take your first steps towards a **career caring for people and communities**.
- ✓ You'll learn the essential skills needed to **support the development** of people with a wide range of needs, from babies and toddlers to adults and the elderly.
- ✓ You'll learn the knowledge and skills to prepare you for **further education** in the care sector and many transferable skills for any workplace.

Breadth and progression

This gives learners the opportunity to:

- ✓ develop essential skills and attributes prized by employers, further education colleges and higher education institutions.
- ✓ give opportunities for learners to achieve a nationally recognised level 1/level 2 health and social care qualification
- ✓ support progression into a more specialised level 3 vocational or academic course or into an apprenticeship.

This suite of qualifications provides opportunities for learners to progress to either academic or more specialised vocational pathways.

What will I learn?

Component 1: Human Lifespan Development

- Levels: 1/2
- Assessment type: Internal
- Guided learning hours: 36
- Learners will learn all about development through different life stages and investigate how, in real situations, human development is affected by different factors and that people deal differently with life events.

Assessment

A written assignment studying a known individual discussing their growth and development across life stages and the factors that affect it. This will also include an interview of an individual to investigate how individuals deal with life events.

What will I learn?

Component 2: Health and Social Care Services and Values

- Levels: 1/2
- Assessment type: Internal
- Guided learning hours: 36
- Learners study and explore practically, health and social care services and how they meet the needs of real service users. They also develop skills in applying care values.

Assessment

Based on case studies, produce a written assignment showing an understanding of the care value base, the different types of health and social care services and barriers to accessing them. This will also include opportunities to demonstrate care values and review own practice by running activities attending work experience.

What will I learn?

Component 3: Health and Wellbeing

- Levels: 1/2
- Assessment type: External
- Guided learning hours: 48
- Learners will study the factors that affect health and wellbeing, learning about physiological and lifestyle indicators, and how to design a health and wellbeing improvement plan.

Assessment

A exam where students read a range of case studies and answers questions based on their knowledge from all three components.
