Year 11

Transition tasks - Summer 2021 (BTEC Health & Social Care)

NOTES for Level Three Health and Social Care:

This course is a broad-based study for the health and social care sector. Whilst it is not essential to have covered the Level 2 Health and Social Care course, if you did not, it may be helpful to familiarise yourself with the Level 2 text book using this link.

<https://www.pearson.com/uk/learners/secondary-students-and-parents.html>

This qualification is designed to support progression to higher education when taken as part of a programme of study that includes other appropriate BTEC Nationals or A Levels.

The course prepares you for working in the Health and Social Care sector and if nothing else, this current situation has led to a realisation of the Nation the fundamental importance, if not the essential and life changing nature of this sector for our Nation. There is no better time to embark on this course and progression into a career in health and social care!

BTECs embody a fundamentally learner-centred approach to the curriculum, with a flexible, unit-based structure and knowledge applied in project-based assessments. They focus on the holistic development of the practical, interpersonal and thinking skills required to be able to succeed in employment and higher education. Therefore, we have given you a skills assessment as one of the tasks to choose from. We have also provided a range of activities from different areas of the course health care, from child development to care of the elderly and nursing and first aid to trying to understand the mind of a serial killer! Enjoy!

READING SUGGESTIONS for all: there are lots of popular subject related books, these are some that you may enjoy.

Watch list: Links to a few TV documentaries or series that you may find interesting-some a little harrowing some truly uplifting.
