

RPS ROUNDUP

20 March 2026

Head's Up

Dear parents and carers,

Over the past two weeks, I have been fortunate to attend several events that truly demonstrate what a fabulous community we have here at Roundwood Park. From cultural celebrations to national sporting success, our students continue to shine.

Last week, we held our second Open Iftaar. This wonderful evening was expertly organised by a dedicated team of students, led by Tayiba A and Noorulain S, with the invaluable support of Miss Semple, Mrs Bridgman and Mrs Bell. It was a privilege to share a meal together and a fantastic opportunity for us to learn more about one another's customs and traditions in such a warm, welcoming atmosphere.

The Science faculty, led by Mr Hambridge, hosted a superb array of activities for Science Week. The lunchtime sessions were a massive hit, particularly the dissection workshop, where students watched our A Level scientists in action. The week's highlight was undoubtedly Safari Stu and his wild animal roadshow. If you haven't seen the photos yet, do head over to our social media pages to take a look.

Once again, our trampolinists performed stunningly at the National Finals, bringing home an impressive collection of trophies and titles. Just as importantly, our students conducted themselves with exemplary sportsmanship, representing Roundwood Park with pride. Thanks to Miss Mullally and Mr Hunter for their support and to Mrs Moxham for her expert coaching.

I would also like to offer a huge well done to Year 8 for their Poetry by Heart competition. After weeks of practicing, the finalists performed in front of the entire year group in the school hall. It was a joy to judge such an impressive field of talent. Congratulations to Eleanor K, Mimi R and Lucia K whose performances will now be filmed and put forward to the National Poetry by Heart competition. Good luck!

The last fortnight has been packed with other activities too, including the prestigious Duke of Edinburgh Awards Evening graced by the Lord Lieutenant of Hertfordshire as well as the GCSE music recital and our Year 10 Careers Day. Read on to find out more.

Have a lovely weeknd.

Katie Barter
Headteacher

What's On

[Click here for Term Dates](#)

- 20 Mar - House Dance
- 20 Mar - Day in the Dark (Eco Week)
- 23 Mar - Y11 Business Revision Trip
- 23 Mar - Reading Week
- 24 Mar - HSMA Spring Music Festival
- 25 Mar - Y13 Economics Revision Trip
- 26 Mar - Y12 Higher Education Evening
- 26 Mar - Y10 DofE Silver Expedition
- 26 Mar - Y12 Future Options Day
- 27 Mar - Non Uniform Day
- 28 Mar to 12 April - Easter Holidays**
- 16 Apr - 'Year 14' Achievement Eve
- 17 Apr - Netball Tour
- 20 Apr - Thank a Teacher Week
- 20 Apr - Y10 Exams Begin
- 21 Apr - Y12 BTEC Revision Trip
- 22 Apr - District Athletics Champs

Iftar Banquet

What a wonderful evening we enjoyed at school as we celebrated Ramadan with our second RPS Open Iftar. Friends from across our community gathered to spend time together; chatting, learning, praying, playing games and enjoying a delicious meal. It was joyous, and we are so grateful to the RPS Iftar Committee - led superbly from the front by Tayiba and Noorulain - for all of their efforts in creating this fabulous event. Read a note from the girls below:

"We were incredibly fortunate to host our second Open Iftar here at Roundwood this week. Our vision for the evening was simple yet profound: to share the beauty of our faith, bring the Roundwood community together, and raise funds for those less fortunate through our fundraising events like the henna stalls and charity raffle."

After weeks of tireless work behind the scenes, seeing the evening come to life was truly rewarding. The hall was filled with smiles, vibrant Islamic attire, and sense of togetherness as we all shared a meal. We are so grateful to everyone who attended and contributed to such a wholesome atmosphere. Our hope is that this tradition of openness and charity becomes a lasting legacy that continues to flourish for years to come.

Your favourite hosts: Tayiba and Noorulain"

Year 10 Careers Investigator Day

This week our Year 10 students had their 'Careers Investigator Day', where we invited 25 alumni, parents and community members to come into school to share information about their jobs. The day proved a great hit as students enjoyed learning about lots of different roles, careers and industries.

They were able to attend 4-5 small informal discussions of their choice, which meant they were really able to interact with employers and gain meaningful insight into topics such as the typical day, average salary, routes into the profession, challenges and rewards of the job.

We were delighted to provide a broad range of roles including: TV producer, veterinary surgeon, lawyer, human resources, photographer, construction planner, cabin crew, midwifery, football academy, architect, engineering directors, life sciences, technology, finance and banking, police force, sustainability, software engineers, as well as business owners and CEOs. We are immensely grateful to all those who supported this event.

RPS Community Legends!

THANK YOU!

WHAT'S GOING ON IN ART....

OUR ENTRIES

This year we have entered the Royal Academy of Arts Summer show and my goodness we are just blown away by our entries!!

We are so impressed by our students' creativity and expression!!

We will be entering every year so don't fret if you missed the deadline!!!

Well done to all our entries!!

British Science Week

We have had a fantastic time celebrating British Science Week, with something for everyone - and the whole school excited to see what our incredible Science team would be wearing next!

As always, they put on a great programme of events; from making bathbombs and slime, to remote control car racing and exploration of our F1 in Schools campaign, making kazoos in the sound lab and the infamous RPS Dissection Day - which may not be for everyone, but offers a unique opportunity to observe some advanced Biology in action.

We may have however saved the best until last when on Friday Safari Stu brought along his awesome animals! Students were able to hold a beautiful Royal Python, stroke an Albino Skunk, interact with a Chukwilla Lizard, watch a Giant Katydid take flight and hold Giant Cockroaches, a Lesser Tenrec Hedgehog and a stunning Chameleon. Huge thanks to Stu for his passion and enthusiasm in sharing these wonderful creatures with us.

Thank you to our Science team, and lots of student helpers, for another fabulous Science Week.

French School Visit

We had a wonderful day with students from the Collège Claude Tillier in Harpenden's French twin town, Cosne-Cours-sur Loire, last week. We welcomed the students with a traditional English cream tea before taking them to some of our lessons, enjoying lots of speaking activities and taking part in a joint choir workshop. Some of our students even got to meet the pen pals they have been writing to for the past year!

It was a fantastic day and we thank the Collège staff for bringing their students to see us, and to our languages team for organising such a great day.

Poetry By Heart

[MORE PHOTOS HERE >>](#) 

What a wonderful event! We held the final of our Year 8 Poetry By Heart competition last Friday afternoon and we were blown away! All of our Year 8 students have, over the last half term, chosen and learned a poem, either individually or as a group. They then planned, practised and performed the poems in their English lessons where the finalists were chosen. Two performances from each class went forward to the final last week and these were performed on stage in the main hall to the rest of the year group, staff and our guest judges - Mrs Barter, Mrs Martin, Mr Stowe and Year 13 English Literature student, Kacie Gash.

Our students left us absolutely speechless and brimming with pride; each and every one of them. Mrs Layton, who runs the competition in school for us, could not have been more proud. The preparation, the determination and the pride that all of our students showed made it a truly inspiring event.

Our judges had an extremely tough decision to make but we are happy to announce that it will be Eleanor K, Mimi R and Lucia K who will be taking their poems to the National Poetry By Heart Competition. We wish them lots of luck and will most certainly be cheering them on!

POETRY BY HEART

Meet the SLG

Hi everyone, we're your new Sustainability Captains: Olivia, Lottie and Emily!

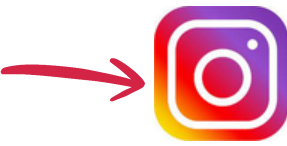

We are super excited to take on this role and have just completed our first big event of the year:

Eco-Week! During this week we ran lots of different events such as our Fairtrade pancake sale and House animal adventures, ending the week with Day in the Dark. We're so grateful for everyone who took part and made it the success it was and we hope you enjoyed it as much as we did.

We have lots more plans for the upcoming year to raise awareness of ways our school can be more sustainable and our main goal is to continue the legacy of the previous Sustainability Captains by maintaining and updating the school gardens - as well as working towards renewing our schools ECO Award. We plan to work with science to help create a welcoming environment for all years to join. We look forward to seeing you all there!

Don't forget to give our SLG a follow on our House System Instagram page!

Y10 House Basketball

It's House Basketball season and our Year 10 students started things off last week with a brilliant show of enthusiasm and team spirit. Well done to **Mandela House** who took the top spot!

Remaining House Basketball dates:
Mon 23 Year 7
Tues 24 Year 8
Fri 27 Year 9

BATTLE OF THE BANDS

We are so proud of our 3 bands who performed in the competition at KWS last night, they were all INCREDIBLE! They've been working so hard, practising in the music rooms every single day, it made for a very exciting event! We are delighted to announce that OFFSETT won and will now play a set at this year's Festival on the Field! A massive WELL DONE to Harry G, Samuel D, Owen G & Lucy L-G from Y10 - you rock!!!

OFFSETT

Governor Open Morning

We welcomed our Governors into school this week to enjoy some more informal time with staff over a coffee and a donut. They stayed with us for a couple of hours to visit some lessons and chat to our students. As always, we really appreciate their support. To find out more about our Governors visit our website > [HERE](#)

Year 13 Physics Trip

MORE PHOTOS HERE >>

Earlier this month, our Year 13 physicists headed off to Geneva aiming to bring their studies to life. They began their trip with an inspiring visit to the University, where they took part in an interactive session on quantum physics. Afterwards, they toured the Swiss Plasma Centre and learned about cutting-edge fusion research, as well as exploring the Museum of the History of Science. They also found time to enjoy a relaxing boat trip on the lake, and walked to see the famous Jet d'Eau up close. Day one ended with a lively dinner and plenty of fun at the traditional Swiss restaurant Edelweiss.

The following day, our team had a guided tour at the infamous CERN - the European Organisation for Nuclear Research, and one of the world's largest and most respected centres for scientific research. Students had the rare opportunity to go 80 metres underground to see the CMS (Compact Muon Solenoid) detector up close. After exploring this remarkable part of the Large Hadron Collider, they spent time in CERN's extensive exhibitions, learning more about the discoveries and technologies that shape modern physics. The visit concluded with an engaging seminar on particle physics, which gave our students deeper insight into the fundamental building blocks of the universe.

It was a fascinating and fantastic trip with a great group of students.

Meningitis Awareness

I'm sure you have all been deeply saddened to hear about the deaths of two young people following the reported outbreak of meningitis linked to the University of Kent and schools local to Canterbury.

Meningitis can progress very quickly and its impact is devastating, particularly for young people and their loved ones. University students and young adults are among the groups at increased risk because they are more likely to carry the bacteria that can cause meningitis, and because bacteria can spread more easily in settings where students and young people live, study and socialise closely together.

In the last couple of years, Kate Speirs, A Level language assistant at RPS and mum of ex-St Georges pupil Sophia, has been in to talk to our 6th form students following Sophia's experience of MenB (meningococcal group B) in her 1st year at university. She was critically ill and suffered various life-threatening complications but fortunately was one of the lucky survivors. Sophia and Kate hope to run another talk here at school soon. However, in the meantime they are urging students, young people, staff and families to remain vigilant for the signs and symptoms of meningitis, which can include a high fever, severe headache, vomiting, sensitivity to light, confusion, cold hands and feet, limb pain, loss of hearing and, in some cases, a rash that does not fade under pressure. Symptoms can appear suddenly and can easily be mistaken for flu, a heavy cold or even the after-effects of a night out, so it is vital that anyone who is concerned seeks urgent medical help immediately.

Vaccination is the only way of preventing certain types of meningitis, and many students will have had the MenACWY vaccination at school. However, it is important for teenagers and young adults to be aware that they are unlikely to have been vaccinated against one of the most common causes of meningitis in this age group, which is MenB. Currently the vaccine is only available privately through high-street and supermarket pharmacies, not on the NHS. We encourage everyone to check that they and their families are up to date with the vaccines available to them and to be aware of the signs and symptoms too.

The Great Big Dance Off

We had the pleasure of taking 16 dancers to the Great Big Dance off at the Gordon Craig Theatre this week. Ranging from Y7-10 our team was entered into the KS4/5 category - which meant they were competing against some very experienced dance groups. Our girls were amazing and achieved their highest ever score! Extra special thanks to Keeley K and Naomi H in Y10 who have worked tirelessly with the team since September. Well done everyone!

Read all about it...

Vol 45

20 March 2026

Thank you to all 307 parents who participated in our recent **World Book Day Survey**. Your feedback provided us with a wonderful snapshot of the reading culture within our school community. We are thrilled to share these encouraging results, which highlight a resilient passion for books among our students. Our survey shows that a significant portion of our student body remains deeply engaged with reading for pleasure.

Higher than National Averages: While the National Literacy Trust reports that only 32.7% of children and young people aged 8 to 18 enjoyed reading 'very much' or 'quite a lot' in 2025, our school community is bucking the trend. Over 45% you reported high levels of enjoyment, scoring a 4 or 5 on our engagement scale.

Nearly two-thirds (65.8%) of you

identified your children as 'total bookworms' or as readers who are ready to dive into a story once they find the right book. This highlights the vital role our school and home libraries play in connecting students with genres that spark their individual interests.

The transition to secondary school is often a time when hobbies can fall by the wayside, but our students are showing remarkable consistency:

- Nearly 64% of you reported that their child's interest in reading has either increased or stayed the same since starting secondary school.
- While fiction remains a firm favourite for 73.9% of our students, over a quarter of our readers are finding joy in non-fiction, showing a healthy diversity in reading habits.

One of the most heartening findings is the powerful

influence of the home environment. The data shows that our parents are leading by example:

- An incredible 93.8% of you say that your child sees you reading for pleasure, either often or occasionally.
- Despite the busy schedules of secondary school life, over 54% of you still find time to read with your child at home. This modelling is one of the most effective ways to encourage lifelong literacy.

While 'technological distractions' remain the most difficult for 42.3% of our students, the survey results prove that the foundations for a love of reading are stronger than ever and reading a good story might be just the way to break away from the screens.

Why not grab our WSR 'The Things We Leave Behind' by Clare Furniss from the library to read over the holidays!

M Davies, D Nijjar, C Wilmot & I Wright (3rd individual)

Intermediate Y10-14 Boys - **TEAM 1st!**

T Sandilands (1st individual), T Dickens (3rd individual), R Hutchinson, S Dyer

Novice Y10-14 - **TEAM 1st!**

M Lumb (1st individual), K Upjohn (3rd individual), L Wise, I Wall

Novice Y7-9 - **TEAM 2nd!**

S Williams (3rd individual), D Allen, J Brindley & M Baloch

Well done to everyone for their dedication and hard work, you're all amazing!

Thank you also to our brilliant staff team led by Mrs Moxham, legends.

DofE Nightwalks

For the past two weekends our DofE Gold Award students have been practising their low visibility navigation skills on the night walks. With a pit stop to taste dehydrated camping meals and warm up with a hot chocolate along the way. With flooding the first week and heavy rain the next we hope the weather in Wales in May is a little better!

MANDELA HOUSE WEEK

We have all enjoyed a brilliant Mandela House Week!

Monday started with the support of our Sustainability Captains and Climate Action Group selling Fairtrade pancakes, fruit and chocolate at breaktime - a great success! Sweet sales followed for the rest of week, to students' delight!

On Wednesday we were blown away by our amazing Dance-a-thon dancers - who danced after school for 4 hours! - raising funds for our three school charities. Well done to them all!

The week also saw a fun Easter Egg Hunt for our Y7 & 8 students, well done to our Golden Tickets winners!

We also want to say well done to our fantastic students who came along to audition to perform at this year's Roundwood's Got Talent. The show will take place on **Wednesday 15 April** - tickets for the show are available now on ParentPay, we hope to see you there.

Well done to Wilf and Izzy, our new Mandela House Captains and Head of House, Ms Casey for a great week!

GT: COME FLY WITH ME!

Last week GT launched it's new House Leader event... 'Come Fly With Me'. An event dedicated to raising awareness for our new local charity, Essex & Herts Air Ambulance. House Leaders from each House were set the challenge of designing and creating a House helicopter out of recycled materials in 1 hour! The final products were exceptional - go check out the top 3 in the hall foyer!

Maths in Action!

Last week our year 12 maths and further maths students got to take a trip into London for Maths in Action, an exciting day of lectures on all things mathematical. From the statistics used in pharmaceutical trials to the maths of Pokemon, students were exposed to a large range of real-world applications of maths. It was a star-studded line up of speakers, including Dr Tom Crawford of 'Tom Rocks Maths' fame and even the one and only Dr Frost! Students really enjoyed getting to meet the speakers in between talks, with some taking the opportunity to get signatures on their calculators!

District Gymnastics & Dance Display

What a great evening we enjoyed at St Albans High School for Girls this week! Our trampolining and dance squads performed brilliant gym and dance routines alongside students from 7 other local schools, making it a fantastic community event. Our squads performed pieces ranging from dance, box and trampette work and duo trampolining routines. We watched brilliant performances from our RPS students, we're so lucky to work with such dedicated young people.

Thank you to our PE team yet again, for another amazing event. And thanks to STAHS for hosting this vibrant community showcase each year, it really brings us all together in celebration of our brilliant young people.

Further Maths Lecture

This week our Year 12 further maths students were treated to a lecture from Roundwood's very own Mrs Holden-Cole on fluid dynamics and her time working in aeronautical engineering. A highlight of the talk was getting to learn about Reynolds number, which is used to characterise a fluid flow. Mrs Holden-Cole did a fantastic demonstration of how experiments with liquids of certain viscosities can lead to amazing results such as time-travelling fluids.

Students were proud to see that they have covered enough material in their further maths course by this point to be able to understand some of the complicated maths behind fluid dynamics!

DofE Awards Ceremony

[MORE PHOTOS HERE >>](#)

We held our annual presentation evening last week where 90 students received their Silver DofE Awards from the Lord Lieutenant and Deputy Lieutenant of Hertfordshire. Our Y11 students have completed their awards over the last 18 months and have committed to several hours a week to complete the four sections.

In the skill section we had achievers who have learnt to cook, code, officiate, life save, fish, write poetry, train dogs, speak French, German, Italian, Mandarin and Spanish. Some began playing pool, singing, acting, performing circus skills, taking better photographs and even designing camping gear.

Over two three-day expeditions they battled through rain, cold and then on qualifying, a heat wave! Walking over a combined 9,000km. For the physical section participants played team sports including football, synchronised swimming, netball, water polo, cricket, basketball and rugby union. Individually they learnt to climb, swim, Thai box, dance, ski, snowboard, run, hike, trampoline and hone martial arts.

Collectively, the students volunteered over 3,500 hours to the school, local and wider communities and many have continued with this – that is 145 24 hour days! We have helped Scout and Guide groups, Park Runs, inclusive theatre groups, debate societies, sports clubs, charity shops, knitted snuggles for homeless animals, churches, mosques, elderly neighbours, kept Kinsbourne Green Common tidy, led school clubs, fixed school 3D printers and helped wildlife.

We are now working with a record number of Y10 students and are heading off on expedition over Easter. We also look forward to May when the first of your Y13 Gold Award holders will be at Buckingham Palace!
